**Sustainable Futures**

**Issues in Global Studies (ARSC300)**

**SPRING 2018 LECTURE SERIES**

The theme *Sustainable Futures* brings to the forefront a dialogue about how to meet the needs of the present without compromising the ability of future generations to meet their own needs. Sustainability is understood in its broadest sense, and it includes considerations of the distribution of wealth and resources and environmental renewability in our time and in the contexts of nationality and ethnicity, race and social class, and gender and sexuality.

This lecture series is offered by the Center for Global and Area Studies. It may be taken as a one-credit Pass/Fail course: ARSC300 Issues in Global Studies. The course is open to all students and is a core course for the minor in Global Studies. Please direct your inquiries to Prof. Carla Guerrón Montero (cguerron@udel.edu)

**CARLA GUERRÓN MONTERO** | Anthropology; Latin American & Iberian Studies
