

SUSTAINABLE FUTURES

ISSUES IN GLOBAL STUDIES (ARSC300)

SPRING 2018 LECTURE SERIES

The theme *Sustainable Futures* brings to the forefront a dialogue about how to meet the needs of the present without compromising the ability of future generations to meet their own needs. Sustainability is understood in its broadest sense, and it includes considerations of the distribution of wealth and resources and environmental renewability in our time and in the contexts of nationality and ethnicity, race and social class, and gender and sexuality.

MONDAYS
12:20 –1:10 PM
204 Gore Hall

FREE & OPEN TO THE PUBLIC
